

9 March 2007 – PRESS RELEASE

SpeedFerries Introduces New Ticket and Pricing System

Low cost fast ferry operator SpeedFerries entered the market in May 2004, and has had a dramatic effect on the cross-Channel ferry market. Following the launch of the Dover-Boulogne service, ticket prices on the Dover Strait have been reduced by more than 50 percent to the benefit of all cross-Channel Travellers.

Following the recent take-over of the Dover Hoverport, SpeedFerries now has exclusive ports on both sides of the Dover Strait. As a result SpeedFerries is now ready to take the first step towards a new and even more fair ticket and pricing system introduced on the basis of customer demand.

The new ticket and voucher categories offer tailor made travel for all customers.

- BASIC Tickets are available at a very low cost for customers with set travel dates.
- FLEX Tickets are available for customers who may need to change their ticket at a later stage
- SUPER Vouchers are unique offers for frequent travellers crossing the Channel several times a year. The vouchers offer full flexibility at a fixed low price. The larger the voucher you buy, the more you save.

SpeedFerries also introduces new improved services, such as priority check-in, separate lanes and priority loading to PremierClass and SuperVoucher customers in both exclusive ports.

Limited Introduction Offer – 15,000 Tickets and Vouchers

SpeedFerries offers 15,000 new tickets and vouchers to its customers at a special reduced introduction price.
